## October 2025 Newsletter #85

Before we dive into updates, I wanted to share my privilege of serving as one of 2 Queensland delegates at the 68th Commonwealth Parliamentary Conference in Barbados. The workshops, lectures, and conversations reinforced our responsibility as representatives to Queensland, Australia, and globally. With fellow MP's representing 2.7 billion people across 56 countries, the learnings were invaluable. Barbados' Prime Minister delivered an inspiring address emphasizing that governments must acknowledge mistakes and that pausing to listen demonstrates wisdom, not incompetence. A consistent theme emerged: political parties, parliamentarians, and media must examine how their behaviours incite division and erode trust as combined with AI's amplifying effects, more important than ever is respectful debate, transparency, credibility, accountability and bipartisan agreements to reduce financial waste.

Australian Delegation at the CPC  
Barbados

### Hot Issues

**Whale Entanglement & Shark Nets** – With a second whale entanglement in Noosa and following an Oceans for All meeting where 70% of local business, environmental, and water-user groups supported a trial to replace shark nets with safe alternatives during whale migration, also requested by Noosa Council, I raised this matter in Parliament where I outlined key evidence, including the 2019 Federal Court determination, Administrative Appeals Tribunal findings, and University of Wollongong research that nets do not improve swimmer safety. With government ignoring this evidence, along with KPMG's recommendations to transition away from nets and calls from both Council and our community, I asked given that safe alternatives are already used successfully elsewhere, will the government listen to our community and work towards replacing shark nets with these alternatives during the next whale migration season? Read my full speech at <http://bit.ly/43ualuu>

**Noosa River Management** – Maritime Safety Queensland (MSQ) announced they are consolidating the stage 6 and 7 reforms into a single, final stage. These changes will now take effect 1 January 2026 and introduces a twenty-eight-day anchoring limit per financial year across the entire Noosa River system, including connected lakes and creeks. To provide feedback on any of these changes, please email [sunshinecoast.maritime@msq.qld.gov.au](mailto:sunshinecoast.maritime@msq.qld.gov.au) and CC our office in via [noosa@parliament.qld.gov.au](mailto:noosa@parliament.qld.gov.au).

Meeting with MSQ

Interview with Channel 7

Operation Spring Break  
Teewah

**Financial Scams** – Following recent events, I asked the Minister for Open Data what the government is doing to prevent financial fraud using social engineering Artificial Intelligence (AI) tools which are impacting governments, businesses, and individuals statewide. With cyberattacks occurring every six minutes in Australia and AI making scams more complex, we urge residents to learn how to identify and respond to scams via [www.scamwatch.gov.au](http://www.scamwatch.gov.au), and businesses to explore the Cyber Warden program at <http://bit.ly/3KQ8DgQ>. To read the Ministers response, visit <http://bit.ly/477OCJZ>.

**Operation Spring Break** – Sunshine Coast Highway Patrol issued 126 infringements over four days during the holidays along Teewah Beach in the Great Sandy National Park. These figures highlight long-held community concerns about unsafe and damaging behaviour in the Cooloola Recreation Area. Whilst we appreciate increased enforcement activities, current management and protections are inadequate, and we continue to urge government to implement long-requested measures including speed reductions, seasonal closures, and tighter permit limits, as community expectations and environmental protections are not being met.

## Status Report

**Queensland Energy Roadmap** – This newly announced plan scraps the previous government’s aim to phase out coal-fired power by 2038 and instead will continue until at least 2046. The rationale given is to address rising energy costs and maintain supply reliability, while supporting the transition to net zero by 2050. The changes have drawn mixed responses from stakeholders around impacts on industry, jobs, and the environment, as well in renewable investment. Our office is currently reviewing the roadmap, and we invite resident feedback to help inform advocacy. Please read the Energy Road map at <http://bit.ly/479Qmmb> and share your views via [noosa@parliament.qld.gov.au](mailto:noosa@parliament.qld.gov.au).

**Cooroy Intersections** – Transport and Main Roads has now called for tenders to progress the business case and designs. Please note that these intersections are within the Nicklin electorate, which is represented by Marty Hunt MP, who can be contacted via [nicklin@parliament.qld.gov.au](mailto:nicklin@parliament.qld.gov.au) and please cc our office.

**Vessel Registration Reforms** – Transport and Main Roads (TMR) are developing reforms to vessel registration and identification requirements as part of addressing boat abandonment and dereliction. These changes aim to improve accountability and reduce future wrecks in our waterways, so please provide feedback on the current system and what you feel is needed to inform our advocacy and help shape these future reforms. Please email your feedback to [noosa@parliament.qld.gov.au](mailto:noosa@parliament.qld.gov.au).

Updates on the many matters our office is working on are available at Noosa 360 via [www.SandyBolton.com/Noosa360](http://www.SandyBolton.com/Noosa360). Just use the handy search bar to find information on topics of interest.

## From the Chamber

**2025 YMCA Queensland Youth Parliament** – This annual was phenomenal and a credit to all involved. From meeting the Youth Premier and Cabinet at the Opening Ceremony to serving as Deputy Speaker, every moment showcased our future. We were proud of everyone selected from the 500 applicants, especially Noosa's Jarrah and Nicklin's Nick, who spoke with passion and wisdom, with the road tolls debate highlighting how challenging proposing solutions without increasing costs can be! The key takeaway understanding your 'why' determines what you fight for and sustains you through difficulties. Gratitude to the organisers for a momentous week, and to all Youth Parliamentarians who are making a difference in politics and beyond!

**Containers for Change** – The Health, Environment and Innovation Committee, of which I am a member, released the findings of its Inquiry into Improving Queensland's Container Refund Scheme, with several referrals made to appropriate independent bodies. Recommendations included for the Productivity Commission to investigate whether raising the return amount would deliver better return rates, however ultimately it is up to all of us to boost our recycling and lessen the load on our landfills!

**Parliament After Hours**– In amongst was the launch of two new QLD Parliamentary 'Friends of' (Mental Health Carers and Men's Health), testing of Queensland products, and meeting incredible advocates with Motor Neurone Disease MND, including Gina and Leanne who moved me in ways I could never imagine. We also had the pleasure of celebrating Diwali and Annakut with members of Queensland's Hindu community that saw Parliament House filled with light and colour.

## On the Homefront

**National Police Remembrance Day 2025** – As we gathered with family members and friends to honour police officers who have fallen in the line of duty, as well Queensland Police Service (QPS) staff who support them and police dogs who served as loyal protectors, I thought of those poignant words 'Hasten the Dawn.' Alongside many, we laid a wreath on behalf of Noosa recognising their ultimate sacrifice to keep our community safe, whilst the bagpipes reflected our loss. Gratitude to all of our QPS officers and staff for what you do every day. It is deeply appreciated.

**Peregian Beach Bushcare** – Environmental innovation comes in many forms and the Noosa born and bred 'asparagus assassin' tool funded through our Noosa MP Grants is a fantastic example. To see our volunteers in action, we trekked up through Peregian Beach Access 60 where they demonstrated this incredible invention by Ron Gooch, which makes eradicating this environmental disaster 5 times faster. Gratitude to these committed volunteers who work hard and crawl into the most difficult places to safeguard our native ecology!

Police Remembrance Day in Kawana

Wreaths laid in honour of fallen QPS Officers

**Sunshine Butterflies Walk in Wings** – Gympie Terrace and the riverside paths came alive with colour, energy, and community spirit, and cutting the ribbon is always an honour. The turnout was incredible with familiar faces and new friends united to support the 'Neigh it Forward' fundraiser to help with the care of the furry and feathered friends! Huge thanks to the Sunshine Butterflies team, their wonderful volunteers, supporters and sponsors, and to everyone who walked, ran, rolled, or danced for this amazing cause. Pure magic!

**Meeting, Drop-ins and Catch-ups** – A jammed pack diary of diversity, including with the Envoy Foundation and representatives from Queensland's tourism sector on effective shark mitigation technologies, Care Opinion on how patient and consumer feedback can help improve our health and aged care services, all the way to learning from Zara about her volunteerism with Lifeline and present her with a very well-deserved Queensland Day Award! There were also many interviews, including with Steve Austin from ABC Radio on poor behaviours in parliament and ways to improve this through committee reform. To listen to this interview head to: <http://bit.ly/4o3L2rF>

### **And Finally...**

The year is nearly over, and I use this opportunity to give enormous gratitude to our community, much-loved volunteers and of course my staff including Dylan who has headed into his future to Canberra as a newly married man! Every day in every way, you inspire selflessness, ignite passion for all around us, and importantly foster love. For each other, our natural environment, furry and feathered friends, and importantly, for credible information gathering and evidence as part of growing Noosa's knowledge for effective decision making!

Our home is special, and I encourage everyone to keep spreading ways in making it even more special. Simple courtesies to strangers, all the way to dedicating your expertise and time to our many not for profits or rejecting disrespectful posts and commentary on social media. Importantly, help inform our advocacy and Chamber voting decisions by completing our 2026 Noosa Community Survey in the Connect!

And please, stay safe on our roads and waterways this summer and prepare for storms, fires or floods, by visiting [www.getready.qld.gov.au](http://www.getready.qld.gov.au) and Noosa's Disaster Dashboard at <https://disaster.noosa.qld.gov.au/> Importantly, share our important contact numbers, which you can find via [www.sandybolton.com/keycontacts/](http://www.sandybolton.com/keycontacts/) with friends, neighbours and on community pages when you see someone in need. To our 2025 school leavers, congratulations! Our community is so proud of you, and we look forward to sharing photos from the presentations in the December newsletter edition!

Enjoy the lead into Christmas, and remember to take a moment in the 'rush' to breath, or to just 'be'. ❤️ Sandy
